# UJTL Overview

## and

## Integration of

## Joint Capability Areas Framework

**J7 JTD**
**10 February 2005**

# Agenda

- **UJTL 5.0 Status Report**
- **Joint Force Capability Areas**
- **Future Framework**

# How does UJTL fit in Transformation?

- **Training –** UJTL is the basis for JMETL and AMETL documentation, training objective development, and lessons learned reporting

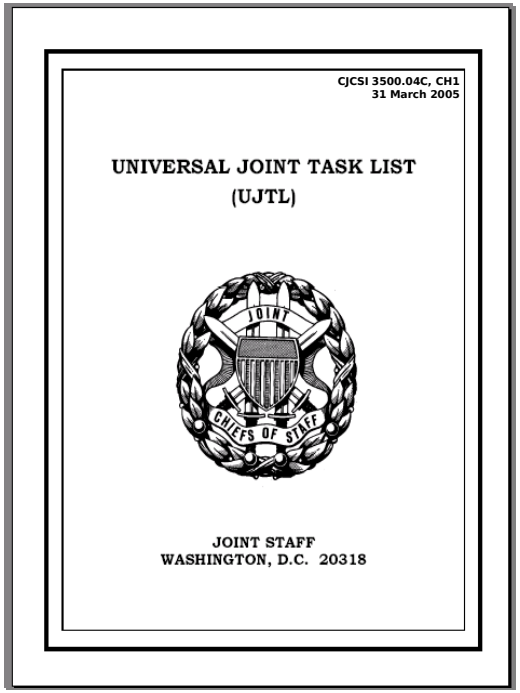
- **Readiness –** DRRS will use UJTL as the foundation for task-centric readiness reporting; DRRS II will transition to a capabilities-based reporting paradigm, where capabilities will be defined through a set (template) of UJTL tasks

- **Plans/Operations – Future versions of the UJTL will have** capability templates to enable Capabilities-based planning. These capability templates will define Joint Capability Areas through a set (template) of UJTL tasks for operators to select for a mission. Operational Planners will then use DRRS to identify "readiness" of assigned/allocated forces to provide a capability

- **Acquisition –** Functional Capability Board "portfolios" will be defined by joint force capability areas (JFCAs) and the UJTL tasks aligned with each capability area; DRRS reporting (assessments by task) will provide PETSO resource assessments directly to FCBs … where funding priorities will be recommended to the JROC

# UJTL v5.0

**UJTL 5.0 in March 05**



CJCSI 3500.04C, CH1
31 March 2005

UNIVERSAL JOINT TASK LIST
(UJTL)

JOINT STAFF
WASHINGTON, D.C. 20318

- **Automation** UJTL task lists and templates. Provides automated search tool on the JEL/JDEIS for joint tasks and joint doctrine
- **Integration** 160+ approved candidate tasks. Establishes new baseline of approved joint tasks (submitted since UJTL 4.2 publication)
- **Institutionalization** UJTL changes process. Establishes business rules for the UJTL Development Community and UJTL Working Party … and establishes procedures for URGENT (current operational requirement) and ROUTINE (semi-annual) updates to the UJTL

**UJTL 6.0 in FY06 … automated updates and staffing**

# Joint Force Capability Areas

Facilitates analysis by capability

Operational categories facilitate translating COCOM needs into capabilities

Functional categories facilitate organization of management and enterprise capabilities

Support senior-leader decision making on capability resourcing

Common structure for articulating joint capabilities

Allows Services to map to a higher, Joint structure

Facilitates categorizing COCOM Integrated Priority Lists (IPLs)

High-level framework for capability assessments and trade-off analyses

Functional categories focus on how military activities are enabled, while operational categories focus on military activities to be performed

Operational categories provide basis for conducting cross-Service trade analysis

## Tier 1 Joint Capability Areas (JCAs)

- Battlespace Awareness
- Command and Control
- Net-Centric Operations
- Interagency Integration
- Information Affairs
- Information Operations
- Protection
- Logistics
- Force Generation
- Force Management
- Homeland Defense
- Strategic Deterrence
- Shaping & Security Cooperation
- Stability Operations
- Civil Support
- Non-Traditional Operations
- Access & Access Denial Operations
- Land Control Operations
- Maritime/Littoral Control Operations
- Air Control Operations
- Space Control Operations

# Tier 1 and 2 Joint Capability A

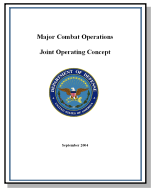
- **Battlespace Awareness (BA)**
  Collection & Monitoring (Enemy, Neutral, Friendly); Exploitation and Analysis; Modeling, Simulation, and Forecasting; Knowledge Management
- **Command and Control (C2)**
  Leadership; Decision Making; Situational Understanding/ Common Operational Picture; COA/Plan Development; Orders Dissemination; Collaboration, Liaison; Communication
- **Net-Centric Operations (NC)**
  Technical Connectivity; Information Assurance; Network Services; Shared Knowledge/Understanding
- **Interagency Integration (II)**
  Interagency Cooperation Activities; Info Mgmt in Interagency Processes; Non-Governmental/Private Volunteer Organization Integration
- **Information Affairs (IA)**
  Public Affairs; Domestic & Foreign Public Information; Public Diplomacy; Media Relations; Internal Information; Combined/Joint Information Bureaus; Rapid Response to Misinformation; Counter-Propaganda
- **Information Operations (IO)**
  OPSEC; Computer Network Ops (CND, CNA); PSYOP; Military Deception; Electronic Warfare
- **Protection (FP)**
  Protect Personnel & Physical Assets; Antiterrorism; Noncombatant Evacuation Ops; Personnel Recovery; Internally Displaced Persons Mgmt; Enemy Prisoner of War Mgmt; WMD Defense
- **Logistics (FL)**
  Joint Deployment/Rapid Distribution; Agile Sustainment; Operational Engineering; Multinational Logistics; Force Health Protection; Logistics Information Fusion; Joint Theater Logistics Management
- **Force Generation (FG)**
  Organizing; Training (Individual & Collective); Equipping; Education; Recruiting; Manpower; Administration; Infrastructure Management
- **Force Management (FM)**
  Global Posture; Command Relationships; Global Visibility; Global Force Management; Adaptive Planning; Mission Rehearsal

# Tier 1 and 2 Joint Capability A

- **Homeland Defense (HD)**
  Security of the Mobilized Force, Bases; Reach-back Infrastructure; National Infrastructure; Continuity of Operations; Securing Domestic Approaches & Territory; Critical Infrastructure Protection (CIP); Population Protection; Homeland Air & Missile Defense
- **Strategic Deterrence (SD)**
  Overseas Presence; Force Projection; Global Strike
- **Shaping & Security Cooperation (SS)**
  DoD Support to Nonproliferation; Security Assistance; Theater Security Cooperation; Inducements
- **Stability Operations (SO)**
  Peace Operations; Security; Humanitarian Assistance; Foreign CM; Civil Affairs; Reconstruction, Transition
- **Civil Support (CS)**
  Military Assistance to Civil Authorities (Military Support to Civil Law Enforcement Activities (MSCLEA) & Military Assistance to Civil Disturbances (MACDIS)); Consequence Management (Domestic); Counter-Drug
- **Non-Traditional Operations (NT)**
  Unconventional Warfare; Direct Action; Counterterrorism; Counterproliferation of WMD; Foreign Internal Defense; Special Recon
- **Access & Access-denial Ops (AO)**
  Operational Access; Forcible Entry; LOC Protection; Freedom of Navigation; Basing; Seabasing; Blockade; Quarantine
- **Land Control Operations (LC)**
  Offensive Land Ops; Defensive Land Ops; Retrograde Land Ops; Operational Mobility; Control Territory; Populations, and Resources
- **Maritime/Littoral Control Ops (MC)**
  Surface Warfare; Undersea Warfare; Maritime Interdiction Operations
- **Air Control Operations (AC)**
  OCA; DCA; SEAD; Strategic Attack; Theater Air & Missile Defense; Force & Supply Interdiction; Airspace Control

# How are the JFCAs and UJTL related?

Concepts → Capabilities → Tasks



JOINT CONCEPTS

Major Combat Operations

Command & Control
Battlespace Awareness
Force Application
Focused Logistics
Protection

JOINT CAPABILITY AREAS

| | | |
|---|---|---|

UJTL Tasks

Tier 1 | Tier 2 | Tier 3

* The UJTL provides the foundation for detailing the activities required to execute Joint Force Capability Areas.

# UJTL organization challenges

**Finding: "Functional categories are more enduring and less apt to change due to new technology…and they provide a basis for organization and it covers warfighting and enterprise capabilities"**

**Functions by Study**

| *OSD* | *FCB* | *Aldridge Study* |
|---|---|---|
| Fire | Force Application | Force Application |
| Maneuver | | |
| Protection | Force Protection | Protection |
| Logistics | Focused Logistics | Logistics |
| C2 Communication | Command and Control | Command and Control |
| | Net Centric Warfare | |
| Intel, Surveillance, & Reconnaissance | Battlespace Awareness | Battlespace Awareness |
| | Joint Training | Manpower/Human Capital |
| | Force | Infrastructure |

**1. Organize the UJTL around a core set of functional capabilities**

**2. There are 3 competing but similar views for functional alignment**

**3. The Aldridge Study provides the baseline from which the OSD and FCB frameworks expand their conceptual functional views**

**… a common alignment is necessary to harmonize not only the Joint, but enterprise activities**

# UJTL Taxonomy

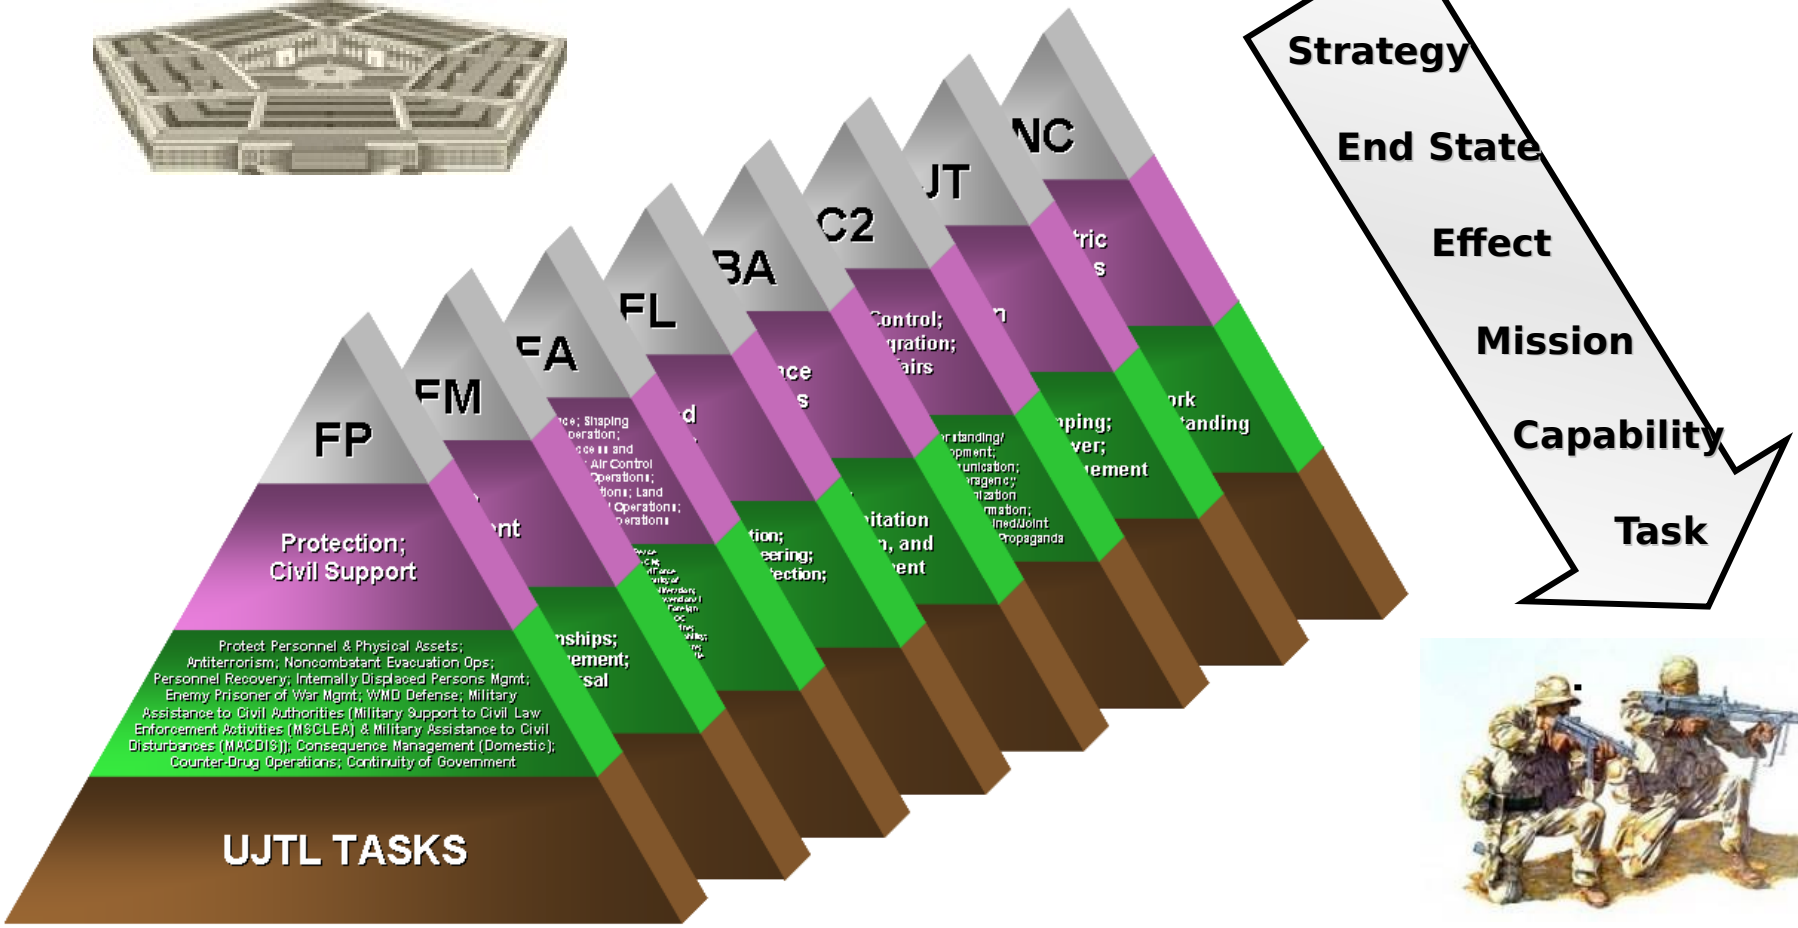
**A common functional alignment for the UJTL that will establish a common framework across the Joint and Defense enterprise**

| *UJTL Functional Area* | *FCB Link* | *Task area character* | *Supporting Joint Pub linkage* |
|---|---|---|---|
| Command and Control | Command and Control | C2 00 | 0-2 |
| Force Management | Force Management | FM 10 | 1-0, 5-0 |
| Battlespace Awareness | Battlespace Awareness | BA 20 | 2-0 |
| Force Application | Force Application | FA 30 | 3-0 |
| Focused Logistics | Focused Logistics | FL 40 | 4-0 |
| Force Protection | Force Protection | FP 30 | 3-0 |
| Net Centric Operations | Net Centric Operations | NC 60 | 6-0 |

# Mapping UJTL Tasks to Joint Capabilities

**END STATE: *THE DEFENSE STRATEGY***

***Assure - Deter - Dissuade - Defeat***



# UJTL in Transition to a Universal Task List

## Universal Capability List

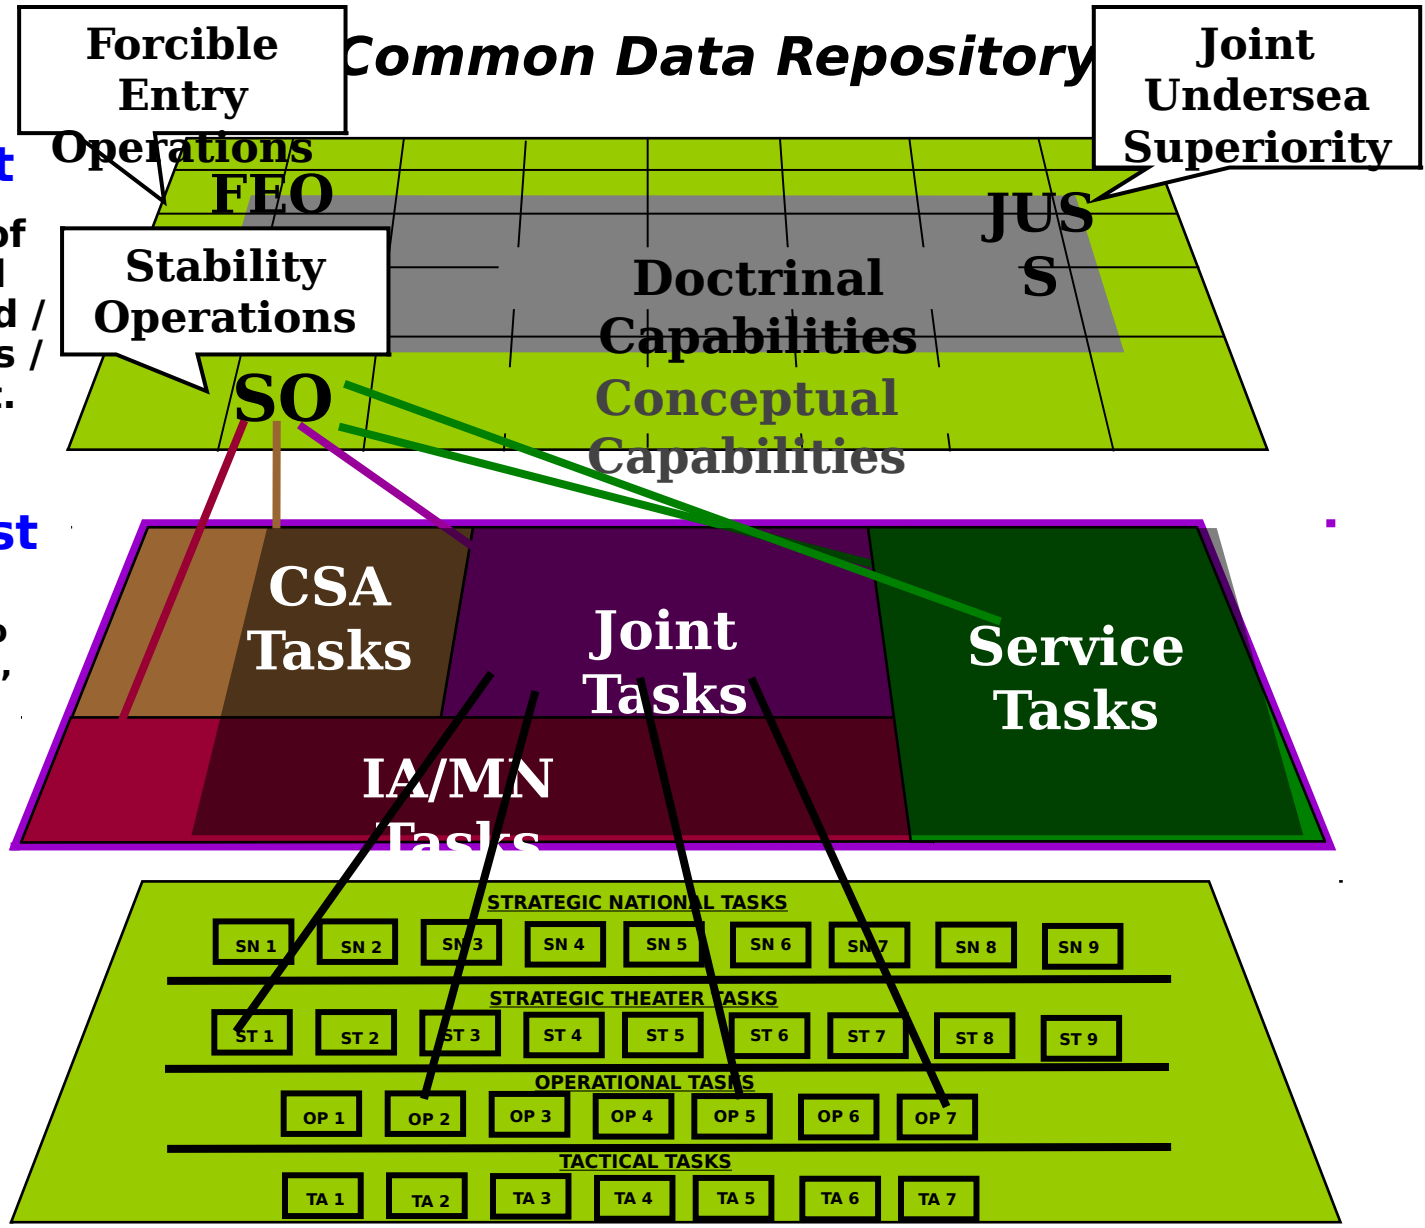
Master database of capabilities linked to current / planned / roadmapped Forces / Units / Equipment.

## Universal Task List

Menu of tasks, conditions, and baseline standards; to include Joint, Service, CSA, Multinational, and Interagency tasks;horizontally and vertically integrated, and mapped to capabilities

## UJTL

Common language and reference system for joint force commanders, combat support agencies, operational planners, combat developers, and trainers to communicate mission requirements



# *Way Ahead*

- **Reinforce use of JDEIS.** The UJTL is automated, searchable, and responsive

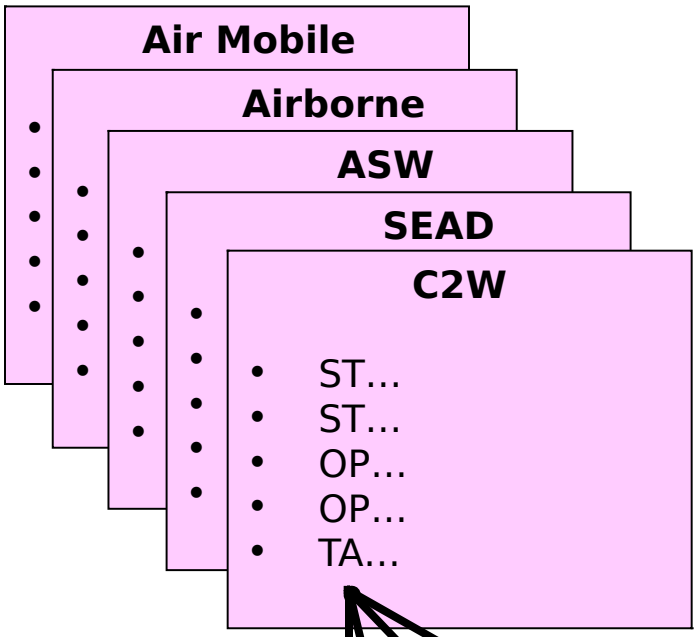
- **Use the UJTL business rules to effect change.** Automated staffing tool accelerates *change* process

- **Participate…**

  - **UJTL Working Party**. Send command representative empowered to vote the command's position on UJTL actions at May 05 UWP.
  - **TIM2 with OSD**. Focus documentation of Interagency and multinational partner task sets to support CoCOM capabilities
  - **JTRAT with JFCOM**. Provide expertise building comprehensive capability templates detailing CSA, service, and interagency task sets to enable CoCOM capabilities

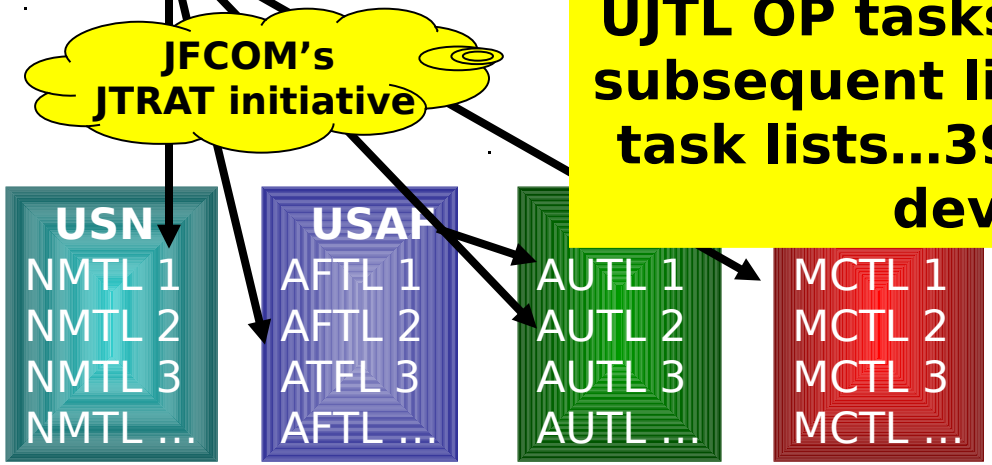
# Discussion

# UJTL … how are tasks linked?



- Currently no formal task linkage across level of war or function
- Operational templates provide planners a tool to bridge across functions and levels of war to describe a capability
- Current UJTL has 60 operational capability templates … others will be required to support joint

**Current GAP… the linkage of UJTL OP tasks to TA tasks and subsequent linkage to Service task lists…39 new templates developed**

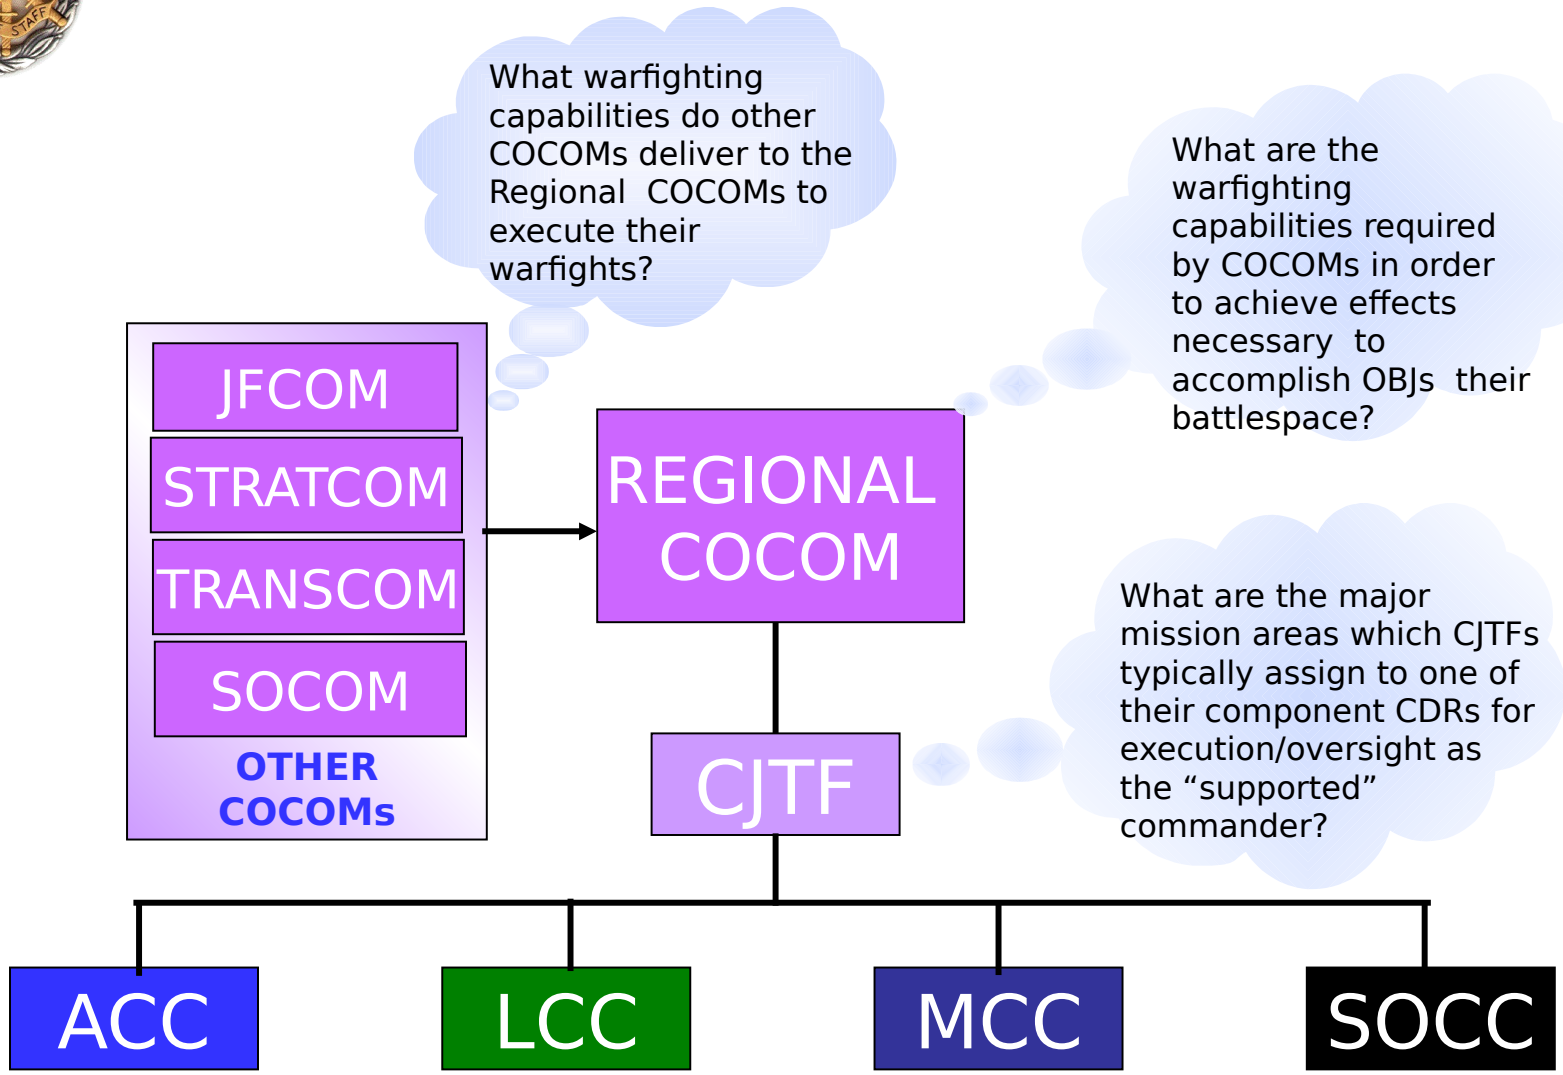


# What are the right Terms?

- **Capability:** The ability to achieve a desired effect under specified standards and conditions through combinations of means and ways to perform a set of tasks.
- **Task:** An action or activity (derived from an analysis of the mission and concept of operations) assigned to an individual or organization to provide a capability.
- **Standard:** Quantitative or qualitative measures for [specifying] the levels of performance of a task.
- **Condition:** Variable of the operational environment including scenario that affects task performance.
- **CONOPS:** The overall picture and broad flow of tasks assigned to subordinates/supporting entities within a plan by which a commander maps capabilities to effects to accomplish the mission for a specific scenario.
- **Effect:** A change to a condition, behavior, or degree of freedom.
- **Endstate:** The set of conditions, behaviors, and freedoms that defines achievement of the commander's mission.
- **Mission:** The purpose (objectives and endstate) and tasks assigned to a commander.
- **Measure:** Provides the basis for describing varying levels of task performance.

**Source: MORS Conf Oct 2004 / CJCSM 3500.04C**

# What is the right level to define capabilities
# Identifying the Customer Base



What warfighting capabilities do other COCOMs deliver to the Regional COCOMs to execute their warfights?
What are the warfighting capabilities required by COCOMs in order to achieve effects necessary to accomplish OBJs their battlespace?
What are the major mission areas which CJTFs typically assign to one of their component CDRs for execution/oversight as the "supported" commander?
JFCOM
STRATCOM
TRANSCOM
SOCOM
OTHER COCOMs
REGIONAL COCOM
CJTF
ACC
LCC
MCC
SOCC

"Capabilities should be appropriately 'sized' like those missions typically apportioned/assigned to a component commander to serve as a 'supported commander'."

UJTL Task

# *Issues from the Field…*

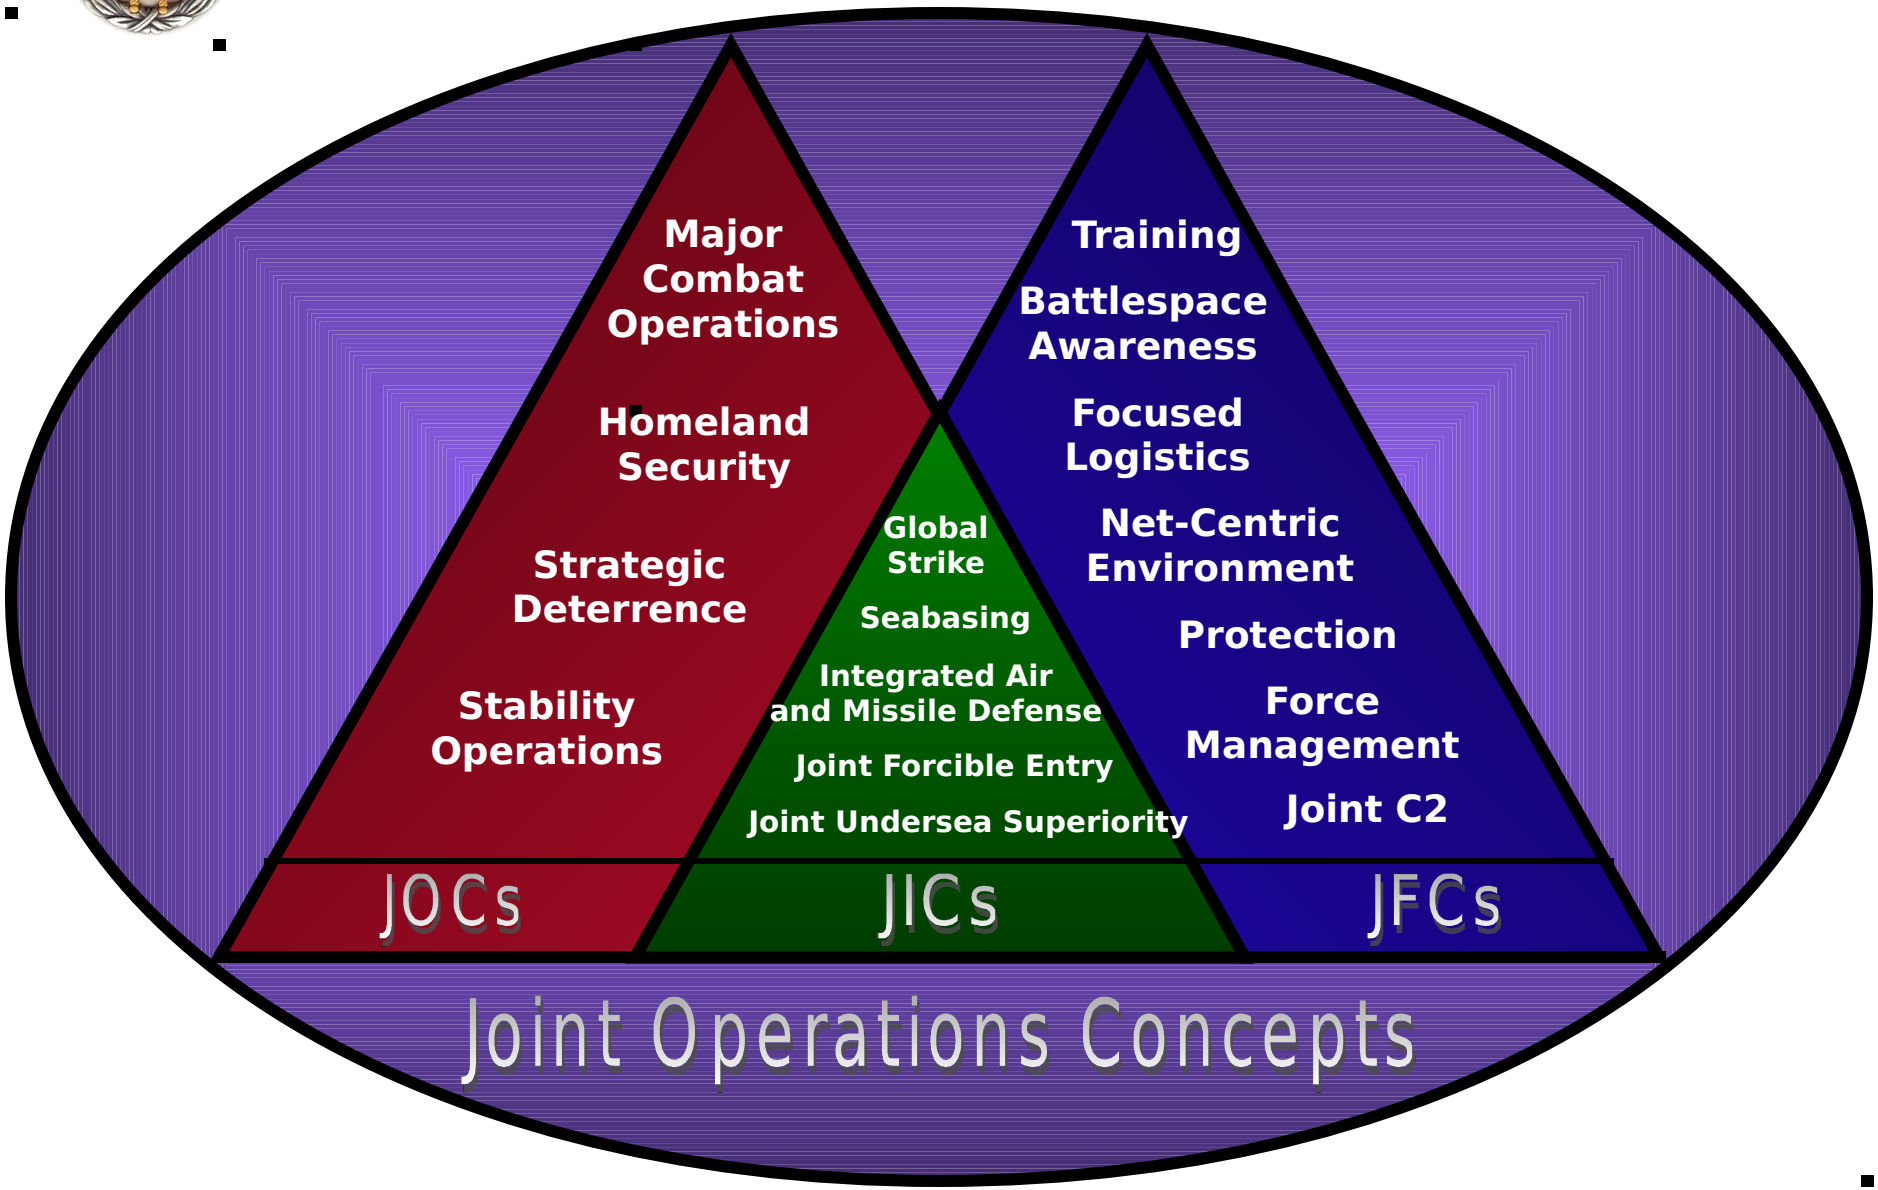
- **UJTL a legacy system**: *Not so*. “Tasks” …the what you do … are enduring; the process and technology cause changes to conditions and standards

- **UJTL does not reflect what we “really do.”** *Hope not so*. UJTL is the basis for training; it is the tool to detail readiness reporting; it provides the framework for acquisition priorities; it will populate the templates for capabilities-based planning … if it’s not what we do, need to update it

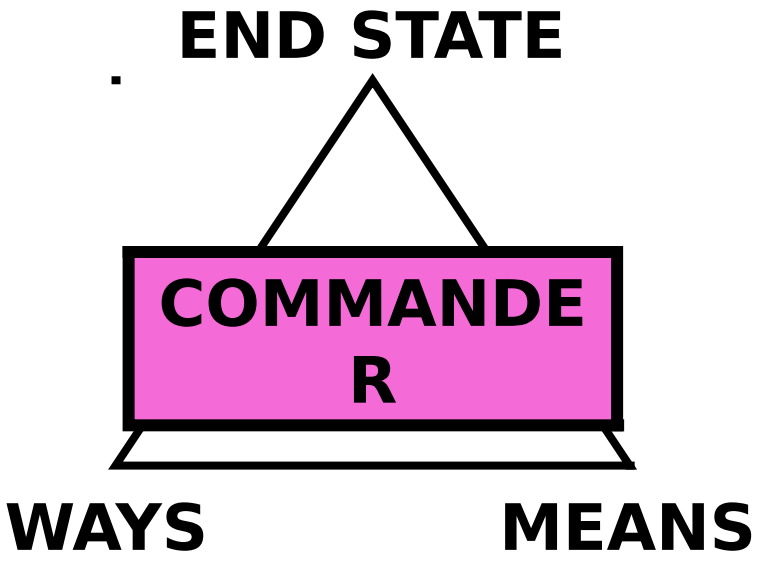
- **UJTL is static**. *Not so*. JDEIS fully automates the UJTL; updates are semiannual. DRRS forces currency and accuracy

# Back Ups

# Joint Concepts



# Start With Doctrine



***OPERATIONAL ART* (JP 3-0):**

**" . . . operational art requires commanders to answer the following questions:**

- **What military (or related political and social) conditions must be produced in the operational area to achieve the strategic goal? (End State)**
- **What sequence of actions is most likely to produce that condition? (Ways)**
- **How should the resources of the joint force be applied to**

# Relationship of key terms…

**END STATE: *THE DEFENSE STRATEGY***

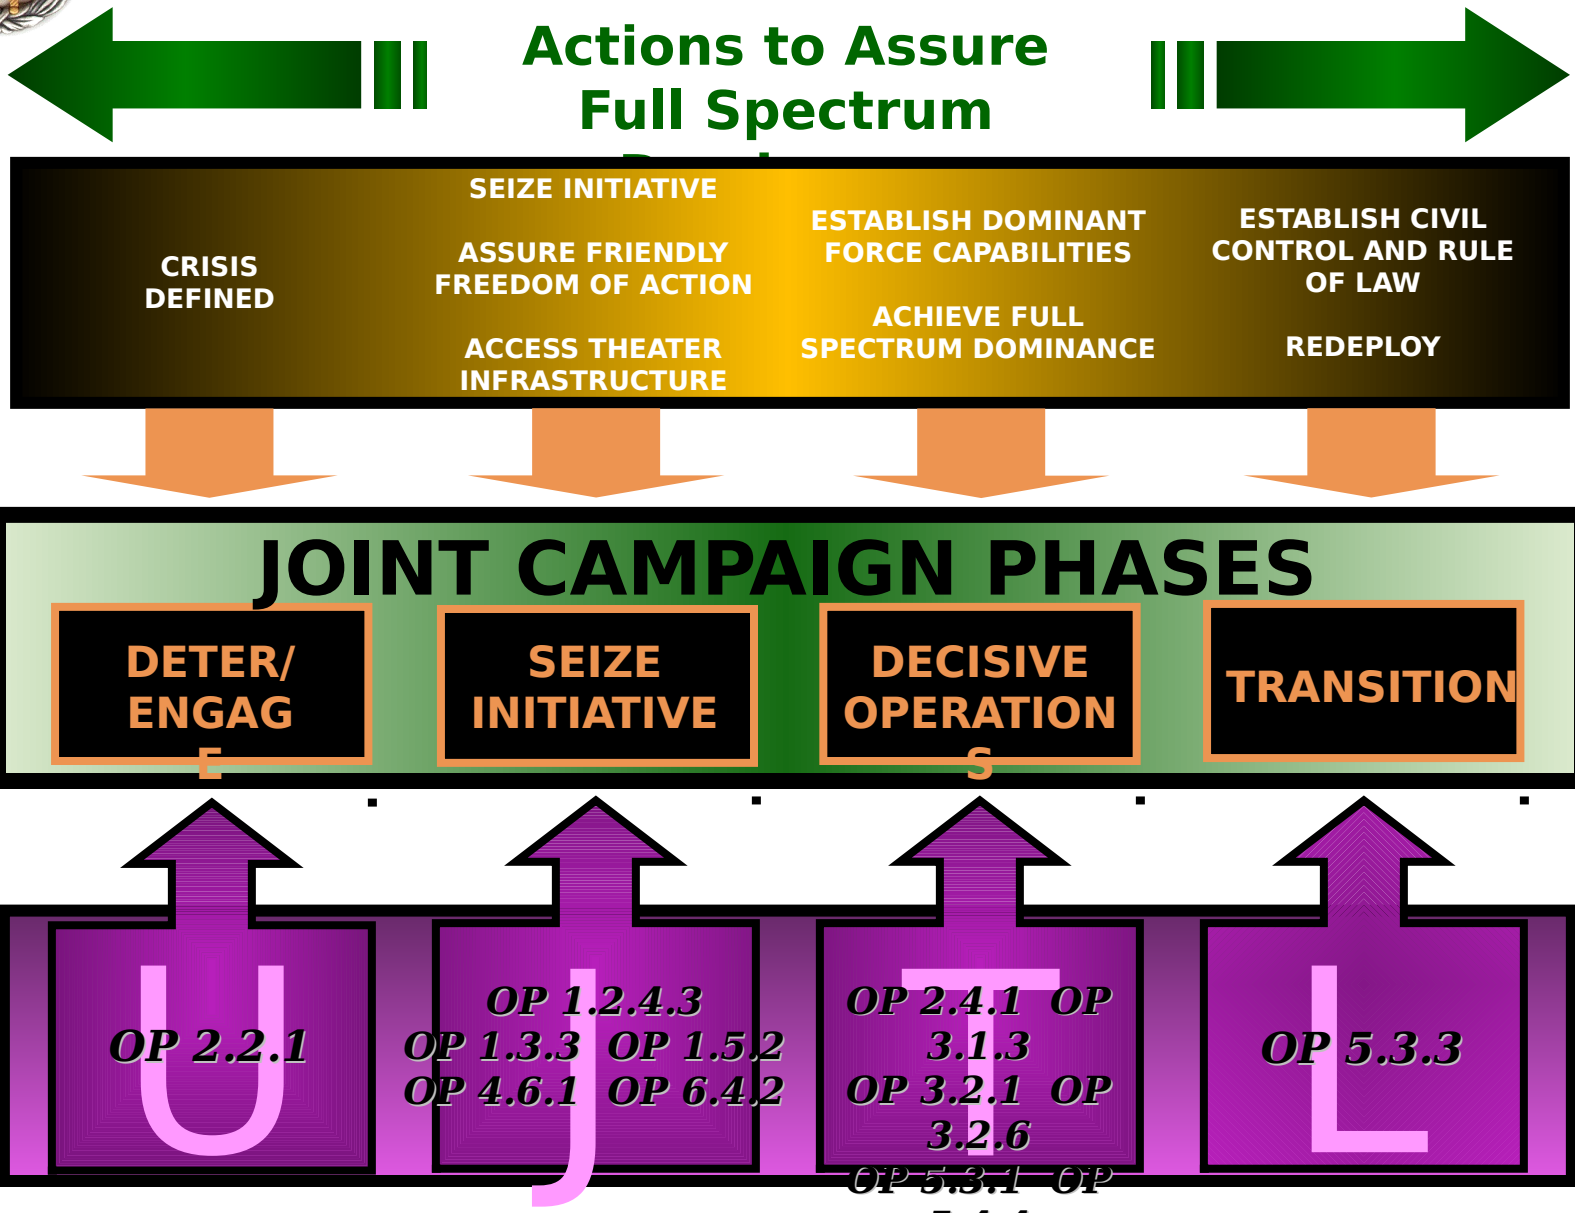
**1 x DRB, 1 x MAGTF, 1 x AW, 1 x CTF, 1 x RNGR BN, 1 x SOW (notional)**

**Capability:** The ability to achieve a desired effect under specified standards and conditions through combinations of means and ways to perform a set of tasks

# Tasks to Plans



# Tasks to Plans

## JOINT CAMPAIGN PHASES

**DETER/ ENGAGE**

- Crisis defined
- Shape perceptions

**SEIZE INITIATIVE**

- Seize initiative
- Assure friendly freedom of action
- Access theater infrastructure

**DECISIVE OPERATIONS**

- Establish dominate force capabilities
- Achieve full spectrum dominance

**TRANSITION**

- Establish civil control and rule of law
- Redeploy

Joint Force Commanders identify the **capabilities** required to execute the missions they assign for each phase in a campaign

## Capability

An operational or functional **capability** can be portrayed as a template that is a set of UJTL tasks … that can be executed with different fidelity by different forces
